

Health Care Reform and Your Bottom Line:

Running a Profitable Practice in Changing Times

Join athenahealth for a private dinner event on Wednesday, September 8th.

With HITECH Act requirements and government reform emerging from Washington, the health care landscape is changing rapidly, making it more important than ever for physicians and administrators to manage their practices for optimal efficiency and profitability.

athenahealth is pleased to invite you to a complimentary dinner seminar designed to help you navigate, adapt, and remain competitive in the midst of federal stimulus bonus incentives and penalties, new Pay-for-Performance rules, and payment reform.

With an emphasis on protecting and growing your practice's bottom line, we'll discuss a range of topics, including:

- ▶ The greatest challenges facing medical practices today and how to overcome them
- ▶ What "Meaningful Use" of an EHR means, and how you can secure up to \$44,000 in federal stimulus incentives through Medicare for demonstrating it
- ▶ Tips for adopting an EHR that actually boosts revenue potential, without breaking your bank or slowing you down

We'll demonstrate how athenahealth's web-based billing, practice management, and EHR services can help you adapt, seize new opportunities, and thrive in the midst of rising challenges. **And we'll introduce our unique Federal Stimulus Bonus Payment Guarantee Program, which guarantees eligible athenahealth clients will receive their Medicare incentive payments within the first year.**

Join us on September 8th at 6:00 p.m.

You'll learn that...there is a better way.

As a service-based EHR, our monthly fee is the only payment we receive from our clients for our EHR. If you don't receive the Federal Stimulus reimbursement dollars when they're available, we will credit you 100% of your EHR service fees for up to six months until you do. This offer applies to HITECH Act reimbursement payments only. Additional terms, conditions, and limitations apply. Talk to your athenahealth sales representative to learn more.
